# CUSTOM SOLUTIONS

From the very first meeting, highly-trained A-One specialists work to understand your business, your exhibit/display strategy and your exhibit space needs. From there, with the right essentials, the roots of an exhibit/display concept are established, serving as the foundation of your company's fingerprint in an exhibit/display design.

## Start With A Concept

A-One Exhibits offers complete design and fabrication services. We start with your ideas and concept. We learn about your company's needs, show objectives, marketing goals and budget.

## Concept To Design

We take all we learn and let our designers go to work on producing drafts to submit to you for approval. As soon as we know we are on the same page we begin refining the design until you are satisfied.

## Fabrication

You dream it, we build it. A-One Exhibits works in a true collaborative partnership. Once we have your ideas, goals, needs developed into a design, our talented fabrication team goes to work. From rough cuts to final assembly there are no details left untouched by our expert craftsmen. With painstaking accuracy and detail, we make sure every facet of design is completed with absolute accuracy.

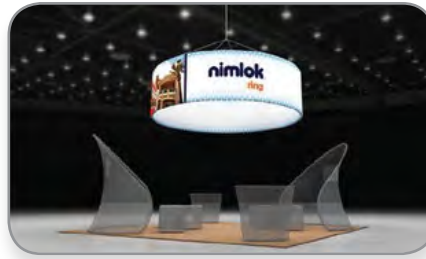

The result is a custom product or entire environment unique to your brand fabricated with best materials available to attract the most consumers.

# RENTAL SOLUTIONS

Rentals cost a fraction of the price of a new booth. Rent a custom exhibit to maximize your presence without the cost of ownership! Full rental packages available including multi-shows. A-One Exhibits handles everything from supervision to installation and everything in between.

# STORAGE

Custom crating options as well as labeling and packing are available through A-One Exhibits.

We can also handle your storage space needs through our sister company, Stow-It West.

Located in the same facility as A-One headquarters, Stow-It West's climate controlled warehouses in Las Vegas, Nevada are centrally located in close proximity to all convention and mega-hotel locations. The warehouse has ample room for storage and staging of your exhibit. This allows for careful and comfortable inventory, assembly and inspection of all our client's trade show display and exhibit materials. Additionally, the warehouse is high-piled storage certified and has loading docks and drive-in doors to allow for easy transportation access.

**Ample room for both storage and staging.**

For optimum safety, the facility houses a state-of-the-art fire suppression system, motion sensors and 24 hour security monitoring. The motion sensors are designed and configured to maximize protection against unauthorized intruders ensuring armed guards will respond to any alarm set off. Rest in the knowledge that your exhibit is carefully protected.
